

# TWIN

The power generator with *the special acoustic insulation system patented by NED srl*

## Better together than apart

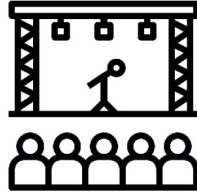

**Diesel power generators with high-quality insulation system**  
Choose a Hypersilent® genset with **TWIN** solution to get **two gensets in one canopy** providing **redundancy and maximum safety in one canopy**.

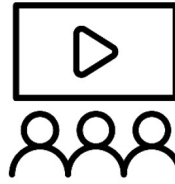

# Best solution for

Hospitals  
and clinics

Events

Cinema and  
Televisions

## Save time and costs

by moving one genset  
instead of two

## Space optimisation

a single canopy take up less  
space than two separate

## Maximun safety and redundancy

the two generators can operate in  
parallel or as a backups for each  
other in case of failure ensuring  
uninterrupted operation

## Redundancy and ease of use

The controllers units of the two genera-  
tors communicate with each other auto-  
matically, making the system simple and  
plug&play
